ly arise. The negro never looks anead, and goes all to pieces when troubles come.

I saw Geo. Lewis Clark in Lexington, and he talked as one who had but a short time to live. He had letters from ladies in Ohio who pleasantly reminded him of little acts of kindness they had rendered him when he had just come over the border as a fugitive slave, and of the great "fuss" which was made over him at that time by the anti-slavery party. He made no efforts to impress upon me the fact that he had ever posed as a hero in his days, nor that he was worthy of any special notice now. "My days on earth," said he, "are few, and I hope I am prepared to go." To all of my questions he made a prompt and respectful reply, just as any other old-timy "Sarvant Marster" negro would do when he knew that he was talking to a Southern man whose sympathy for him was natural and genuine.

"Corrigenda" concludes by saying that "however distasteful Mrs. Stowe's book was to many persons, there is one point which it is well not to lose sight of, and that is that her word is as good as that of any negro any day in the week. I will, in conclusion say, that I know many a negro whose word I could take any day in the year as soon as I would Mrs. Harriett Beecher Stowe's.

It appears that in certain parts of Paris there are certain persons who perform ceremonies which constitute a parody upon the rites of the Catholic church. One of these ceremonies is called the "black mass," a description of which it too horrible for publication. A religious publication eatitled, strangely enough, the Devil in the Nineteenth Century, denounces these demoniscal ceremonies and endeavors to unmask the false priests; and this is the journal which is now sued in the Correctionalle for libel, the plaintiff did they need ladders"?—Boston Home

Support of His Side.

Guibourg, described by Jules Bois in his book on "Satanism and Magie," at which ceremony it is said Mine, do Montespan assisted, with the view of getting restored as the favorite of Louis XIV.

At the present time, according to M. Clunet, the progress of Satanism had alarmed the Church. Quite recently the Rev. Father Monsabre preached a sermon upon the empire of the devil, and Mgr. Germain, Bishop of Coutances, warned his flock against Satanism. Furthermore, Leo XIII, himself, no later than last year, composed a prayer to St. Michael, the Archangel, that figures to-day in all the rituals. Particular indulgencies are given to those who daily recite this prayer. Finally, in the diocese of Rheims the ecclesiastical authorities recommend to the faithful who wish to defend themselves against the power of the devil to carry with them the little holy water holder of St. Remy, a sort of little case surmounted by a cork in the form of a tlara, which enables one to sprinkle the hands with holy water at every instant. M. Clunet finished by asking for a severe punishment for the editor of the Devil in the Nineteenth Ceatury. The case is still on.—New York Sun.

BELL AND STANDARD.

RUMORS OF CONSOLIDATION AGAIN STARTED AND PROMPTLY DENIED.

General Attorney George H. Fearons and Vice-President James Merrihew of the Beil, Spent Friday in Richmond.

Messrs. George H. Fearons, general attorney of the Bell Telephone Company and of the Western Company, and Jampresident of the Bell and general superint of the Westcompany, and Jah president of the Bell and Company and general superiors of the Western Union Telegraph and y, arrived in Richmond from New York Friday morning. Their presence in the city was not widely known, but among those who were cognizant of it the rumor which prevailed several days since of a consolidation of the Bell and Standard Telephone Companies was at once revived, and it was stated that a meeting of the directors of the Standard had been held, at which Messrs. Fearons and Merrihew were present, and that plans were discussed looking to the two companies pooling issues in Richmond.

RUMOR POSITIVELY DENIED.

When Captain A. B. Guigon, general counsel for the Standard Company, was seen yesterday afternoon and told of those reports, he denied most positively that anything of the kind had taken place.

"In the first place," he said, "there

that anything of the kind had taken place.

"In the first place," he said, "there has been no meeting of the directors of the Stendard Company, and no action, therefore, of any kind has been taken. I did not even know that these gentlemen had been in Richmond. I presume their business must have been in connection with the plans of their own company, for they certainly had no consultation with any of our people. There have been no overtures of any kind made by either side as far as Richmond is concerned. I cannot speak positively about the parent comparies in New York, but I don't think any effert to make a deal has been made by them."

"Of course," Captain Guigon continued, "If we could make an advantageous bargain with the Bell Company, whereby we could use their poles and wires, we would do so temporarily, bit our company would still be a separate and distinct organization."

In conclusion, Captain Guigon said that

would do so temporarily, and our company would still be a separate and distinct organization."

In conclusion, Captain Guigon said that there was not the most remote probability of the two companies becoming one, and that all rumors to the contrary were raise and idle.

PUSHING THE WORK.

Regarding the work belies done by the Standard, he said that their engineer, Mr. Charles T. Child, was busily at work perfecting plans, and that several small contracts had already been given out. Within the course of three or four days, he said, they expected to have their men at work on the streets, and to have the lines in working order within the time size in them to complete the work, which expires April 5, 1896.

Mosers, Fearsons and Merribew left at 7:10 o'clock Friday night for New York.

Wants the South Represented.

The following is taken from the New ork Mail and Express, Elliot Shepard's

York Mail and Express, Elliot Shepard's paper:

The South chivalric, undaunted and dedicated answ to the cause of American honor and integrity, should be represented either by membership in the Venezuelan commission or in the board of counsel to that body. What's the matter with having John B. Gordon of James Longstreet, of Georgia? Is there any objection to Wade Hampton or M. C. Butler, of South Carolina? Can anybody oppose John W. Inabel, of Virginia, or John T. Horgan, of Alabama, or Boyd Wincheste., of Kentucky, or any of the scores of patriotic ex-Confederates who might be named? Nothing would be more disappointing—and we hope nothing is more unlikely—than the appointment of a commission which does not include a representation of that portion of the American Commonwealth known in the history of western valor as "the Southern Confederacy."

For the Poor of Richmond.

A grand entertainment is being arranged to be given early in January for the benefit of the poor of this city under the auspices of the Society of St. Vincent de Paul. The entertainment will be given in the Academy of Music, and will be under the direction of Mr. Horace F. Smith. The principal feature of the evening will be the first appearance befort a Richmond audience of Colonel C. O'B. Cowardin, who will give an humorous monologue on "Things I don't know." Colonel Cowardin has twice appeared before large audiences in Battimore for charitable objects, and the Ealtimore press has been loud in its praise of his genius and the irristible humor of his monologue. Colonel Cowardin will no doubt be greeted by a large audience when he makes his debut in Richmond under the above auspices. The date with be announced in a few days.
